Saves Lives When Seconds Count®

How LifeFone Works

1 Summon Help

Press your LifeFone help button or if you have the optional fall detection service, your button can summon help automatically in case of a fall.

2 Immediate Assistance

You will be connected to a LifeFone Care Agent who will identify your location, access your Emergency Care Instructions and stay in contact with you until help has arrived.

3 Help Comes to You

LifeFone will contact a neighbor, friend, family member or EMS depending on your situation. We will then notify loved ones according to your Emergency Care Instructions.

LifeFone Provides 24-Hour Protection For ANY Emergency
